Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions with which people are annoyed in spring and early summer. The effete matter accumu-lated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into Scrofula. This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying med-icine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of Hered-itary Scrofula.

The medical profession indorse AYER's SARSAPARILLA, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists: Price \$1;

from a composition of the worst Scrumber Scrumbe Salt-Rheum, "Fever-

Thoroughly cleans it by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirite, vital strength, and soundness of constitution, will be established.

CONSUMPTION,

which is Scrofulous Disease of the Lunga, is promptly and sertainly arrested and council by this God-given remedy, if taken before the last stages of the disease are reached. From its wonderful powers — this terribly fatal disease, when first effering — now celebrated remedy to the public, Dr. 1. — a thought seriously of calling it his "Consumption Cure," but abandoned that name as too limited for a medicine which, from its wonderful combination of tonic, or strengthening alterative, or blood-cleanning, anti-billous pectorial, and nutritive properties, is strengthening alterative, or blood-cleansing, anti-bilious, pectorial, and nutritive properties, is unequaled, not only as a remedy for consumption of the lungs, but for all
